# Recycled Genuine Parts

## DELIVERING GENUINE QUALITY & SUSTAINABILITY WITH RECYCLED PARTS

Keith Andrews Truck Recycling Centre based in Whangarei provides OE recycled parts for FUSO, Mercedes-Benz, Freightliner and other truck brands.

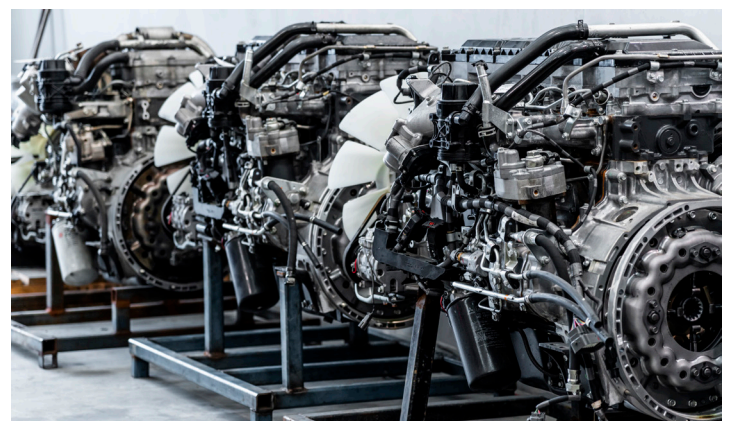

Recycling centre manager' Kurt Dowson says that the company goal is to establish a full truck recycling centre over time and be a leader in sustainable, reliable and expert genuine recycled parts supply for commercial operators across the country.

"To complement Keith Andrews' range of genuine new parts, the recycling team also specialises in dismantling late-model, low-kilometre FUSO commercial vehicles. This has already expanded to Mercedes-Benz and Freightliner with a growing industry drive for sustainability and the high-value provided by these quality recycled parts.

"All parts are removed, cleaned and catalogued – ready to go, right off the shelf, ensuring a fast response and the right part, first time."
